Wait for him to sidle up to  
you again some night.  
Then shoot his eyes out.

he'll  
have you downstairs in his basement,  
coat off, tie askew,

With perhaps a modest  
wager, just to keep things interesting.

You know what he'll do?

haps. But tough.

*unusually smooth, superbly delicious*

On the other hand, there are her under-  
arms. Delicate. Sensitive. Obviously in need

And before you know it

He'll invite you and the missus  
over for dinner some night.

*the taste of the combined rare  
and delicious ingredients*

we know  
of only one way to deal with  
such a person.

Practice up so you can play  
the game pretty well yourself.

*Then you'll understand*
